DETAILED ACTION

The restriction requirement mailed June 26, 2009 is withdrawn and the following restriction requirement applies. Accordingly, the applicants arguments filed July 27, 2009 are moot.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-19, 22 and 23, drawn to an apparatus and method for generating outgoing data to be provided on an optical disk and an apparatus for manufacturing an optical disk.

Group II, claim(s) 20 and 21, drawn to an optical disk.

Group III, claim(s) 24-26, drawn to an apparatus and method for reading an optical disk.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the invention of Group I includes a channel encoder (4) and a data processing device (5) which is not required by the invention of Group II or Group III; the invention of Group II includes data (DA) comprising frames comprising a layer indication (LI) and a random data sequence (RDA) which is not required by the invention of Group I and Group III; and the invention of Group III includes an optical pickup unit (11, 13) and a processor (14) which is not required by the invention of Group I and Group II.

A telephone call was not made to applicants' representatives to request an oral election to the above restriction requirement due to the need for the examiner to promptly act on the application.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Art Unit: 2627

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 571-272-7588.
